Top tips for
Early Career Researchers

How Open Research Europe can help

1 Build your network

Open and transparent peer review enables you to:

- Choose peer reviewers as an author
- Increase your connections and future opportunities for collaboration

2 Stay abreast of your field

- Become a Community Gateway Advisor or a Guest Advisor for a subject specific Gateway and/or Collection
- Promote open science and contribute to a reformed research assessment, in line with current initiatives

3 Focus on your research

- Easy manuscript submission
- Full compliance with the European Commission's open science policy
- Publication of all research findings, not just the positive ones
- A wide range of **article types**
